RE: Richardson Flat Monthly Status Report for June 2006

Dear Ms. Hernandez:

This Monthly Status Report details site activities conducted at Richardson Flat for June 2006.

Sampling Activities Conducted:

No samples were collected in June 2006.

Results:

No results were received in June 2006.

Other Activity:

For the month of June 2006, activity at Richardson Flat consisted of moving stockpiled materials in anticipation of remediation construction, preparation of granular materials for the wedge buttress, generation of road-bed materials and placement of Bevill-exempt wastes from the Upper Silver Creek Watershed. A total of approximately 9,210 cubic yards (cyds) of material were placed onsite from the following sources:

- 1326 Park Ave
- Rail Trail near Prospector
- 1889 Prospector Ave
- Sky Lodge
- Prospect Street

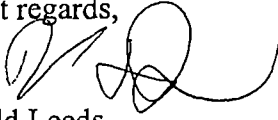

Planned Activities: July and August 2006

Materials from various builder projects in the Upper Silver Creek Watershed could likely generate up to 40,000 cyds during the course of the summer. An additional 14,000 cyds could likely be generated from remediation projects.

RMC will continue to work on documents and field activities as required to complete all required work at the Site.

If you should have any questions or comments, please contact me at 801-255-2626.

Best regards,
